

BESSEY® Safety Strap Cutter

Safety steel strap cutter

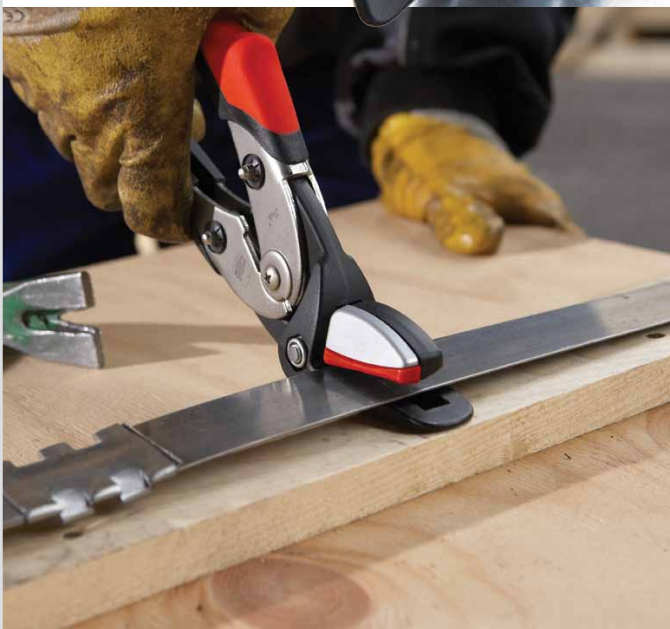

Simply better.

The new improved BESSEY® strap cutter with strap holding element firmly holds strap down while it cuts ... preventing strap from springing up. With compound leverage, you can cut with just one hand and improve productivity while reducing hand fatigue. The BESSEY® ergonomic handle offers comfort and keeps the hand from slipping.

Your benefits at a glance:

- 1 Cuts steel straps up to 32 x 1mm (1 1/4" wide x 20 ga.) with one hand, perhaps the only one-handed cutter with this capability
- 2 Holds banding tightly during cut to prevent banding from springing up
- 3 Compound leverage reduces the effort required considerably, improving productivity and reducing hand fatigue
- 4 Ergonomic handle for comfort, keeps hand from slipping

Safety Strap Cutter (D123)
