

REC-50M

Battery Powered Gear-Driven Cable Cutter

Specifications

Weight	6 lbs. with Battery
Size	14.5" L x 4" H x 4.5" W
Jaw Opening	2"

Cutting Estimates

	BP-80
1000 MCM Cu	40
1500 MCM Al	50

Cutting Capacities

Aluminum	1500 MCM
Copper	1000 MCM*

Features

- Improved Ergonomic Handle
- Tested Up to 75kV
- One Hand Operation
- Ergonomically Balanced
- Weather Resistant Housing
- Overload Circuit Breaker Protection
- For Copper and Aluminum Only
- 5 Year Warranty on Tool, Battery & Charger

*Due to material composition, the ratings are to be used as a guide. Actual capacity may vary due to overload circuit breaker protection feature.

DO NOT CUT STEEL OR ACSR. Consult factory for more information on cutting copper cable.

The **REC-50M** battery operated slicing tool cuts 2" cable with the touch of a finger. It features a powerful gear reduction motor that pulls a moveable blade through the toughest copper and aluminum cables.

The ROBO*SLICE comfortably fits into the lineman's gloved hand, and repetitive ratcheting movement is entirely eliminated. Just a squeeze of the rocker arm trigger is all it takes to make a cut and almost no muscle power is needed. As a result, the risk of sprains, strains, and lost time due to muscle related injuries can be significantly reduced. We have rotated the handle 90° to the blade to achieve a more ergonomic and comfortable cutting position.

The moveable blade has wide gear teeth for extra power and full cutting traction. Gear guides are attached on both ends of the moveable blade to align the gear teeth with the internal pinion gear.
